From the boom gate to the bank.

Intake & inspection

Photo walk-around, damage map, checklists per trade, customer signature on the tablet.

Job cards

Labour lines, parts, sublets, clocking, notes and photos — one card for the whole job.

Estimates & approvals

Estimates with photos sent by SMS/WhatsApp; online approval logged to the job.

Parts & suppliers

Requests, POs, receiving, stock, margins, back-orders and supplier performance.

Bay & technician board

Live status per bay; efficiency per technician; WIP ageing.

Invoicing & warranty

Invoice from the card, deposits, statements, QC gates and warranty terms.

STRAIGHT ANSWERS

Which workshops is it built for?

Mechanical repair, panel and paint, auto-electrical and dealership service departments — each with its own templates and checklists.

How does it relate to Swiss Jobs?

Jobs is for technicians who go to the customer; Workshop is for vehicles that come to you. They share customers, parts and invoicing.

WHY SWISS SYSTEMS

We build it

Our own developers, in Johannesburg. Features ship because customers ask, not because a roadmap overseas allows it.

We host it

Tier-3 data centre with 100 kVA redundant power, generator backup and 10 Gbps redundant fibre. 99.9% uptime SLA. SA-resident data.

We support it

The person who answers the phone can read the code. Microsoft Partner, 3CX Gold Partner, POPIA aligned.

Run the workshop from one screen.

30-minute live demo · real engineer · real pricing · no sales theatre.
